

Technical Data Sheet

O₂- Scavenger for Drilling Mud

AAP – O2L1

AAP-O2L1 has been formulated for scavenging oxygen in order to prevent corrosion resulting from dissolved oxygen in oil fields.

AAP- O2L1 is an Ammonium Bisulfite Solution.

Chemical Analysis:

Test	Result
Chemical Formula	NH ₄ HSO ₃
Appearance	Clear to Pale yellow Liquid
Purity (as NH ₄ HSO ₃)	60-65%
Density	1.253-1.380
pH of 1% solution	5.5
Heavy Metal	20 ppm (Max)

Application:

- Oxygen Scavenger Reducing agent.
- Package:230 Kg Polyethylene Drum.
